Prices in US dollars, as of September 2026.

Example: a 25-person heating and cooling company

A website assistant that answers after-hours questions and passes quote requests to the office.

Typically \$7,500 to \$12,000, about 4 weeks.

Example: a seed-stage startup with a working prototype

A first production version of its web app, with sign-in, payments, and the admin screens the team needs to run it.

Typically \$25,000 to \$40,000, 8 to 12 weeks.

Example: a 60-person accounting firm

Document intake that reads client paperwork into the practice system, with a person checking anything unusual.

Typically \$15,000 to \$25,000, 6 to 8 weeks.

Example: a 400-person logistics company

An agent that reads carrier emails and updates shipment records in the company's own system, with a person approving anything unusual.

Typically \$20,000 to \$35,000, 6 to 10 weeks.
